

Public Notice

The Fayetteville Area Metropolitan Planning Organization's Transportation Policy Board to vote on **Amendment #2** to the 2040 Metropolitan Transportation Plan (MTP) to adopt FAMPO's Transportation Safety Performance Measures and Targets.

This amendment will be voted on as Amendment #2 to the 2040 MTP.

The Public Review Period extends from May 9th, 2018 to May 23rd, 2018.

The amendment will be presented for approval on May 23rd, 2018, at 8:30 a.m. in the Community Room of the FAST Transit Center, 505 Franklin Street, Second Floor, Fayetteville, NC 28301.

The FAST Act and subsequent federal rulemaking established five performance measures related to safety. The measures are:

- **Number of fatalities;**
- **Number of serious injuries;**
- **Rate of fatalities per 100 million vehicle miles traveled;**
- **Rate of serious injuries per 100 million vehicle miles traveled; and**
- **Number of non-motorized fatalities and serious injuries.**

Federal regulations require the North Carolina Department of Transportation (NCDOT) to establish and report annual performance targets by August 31st of each year. MPOs are required to either adopt and support the NCDOT's statewide targets or set their own targets specific to their areas. FAMPO has decided to endorse NCDOT's statewide targets and will include these targets in the existing 2040 MTP and future targets as part of the 2045 MTP.

Annual targets will be expressed as five-year rolling averages and be compared with a five-year rolling average base period comprising of the five calendar years ending prior to the year the targets are due. NCDOT has established statewide targets for each of the five performance measures as follows:

- Reduce total fatalities by **5.10 percent** each year from 1,340.6 (2012-2016 average) to 1,207.3 (2014-2018 average) by December 31, 2018.
- Reduce the fatality rate by **4.75 percent** each year from 1.228 (2012-2016 average) to 1.114 (2014-2018 average) by December 31, 2018.
- Reduce total serious injuries by **5.10 percent** each year from 2,399.8 (2012-2016 average) to 2,161.2 (2014-2018 average) by December 31, 2018.
- Reduce the serious injury rate by **4.75 percent** each year from 2.191 (2012-2016 average) to 1.988 (2014-2018 average) by December 31, 2018.
- Reduce the total non-motorized fatalities and serious injuries by **5.30 percent** each year from 438.8 (2012-2016 average) to 393.5 (2014-2018 average) by December 31, 2018.

For more information on these transportation safety performance measures and targets and their inclusion in the 2040 MTP, contact Eric Vitale at (910) 678-7632 or evitale@co.cumberland.nc.us.
